2022 LFC Class Representative Triné Nelson

Selected by the participants of the LFC Leaders Fellowship to represent them at this special event, Triné has built a career working in, and around education. She began her career by helping youth in the foster care and juvenile justice systems to obtain job skills training in preparation for them to enter the workforce. Her understanding of the integral relationship between education and community involvement has only grown and she now serves as a curriculum manager at ASU. Triné is an active community volunteer, focusing her time on strengthening public education and schools in her community. She believes that by providing supportive educational environments to our youth, we build a foundation that allows for the development of skills that will serve students and their community well beyond high school.
